FULL STACK DEVELOPER

A fullstack developer who has demonstrated great problem solving skills and is quick to learn. Passionate about learning new technologies. Currently studying material to acquire AWS cloud developer certification in addition to a rigorous General Assembly coding bootcamp.

TECHNICAL & INTERPERSONAL SKILLS

Languages: JavaScript, HTML, CSS, SQL, Mongo, EJS

Libraries and Frameworks: Express.js, Bootstrap

Databases and other: MongoDB, RESTful Routing, JSON API

Interpersonal skills: Collaborative, problem solving ability, adaptability, empathy, communication

TECHNICAL PROJECTS

Dancing Troopers - [GitHub](#) | [App](#) - HTML | CSS | Javascript

A virtual connect 4 game with a fun storm-trooper twist

- Players are able to click on the board and have storm-trooper themed pieces drop down as is desired in a standard connect-4. A winner is determined when 4 pieces are aligned vertically, horizontally, or diagonally.
- I use win/loss logic to render win/loss messages on HTML using DOM manipulation.
- Used CSS and CSS flex-box to create the game-board and overall styling.

myDietFriend - [GitHub](#) | [App](#) - HTML | CSS | Javascript | Node.js | MongoDB | Express |

A daily macros, calorie, workout tracker.

- Users are able to log in using their google accounts and then are able to keep a daily log of fats, protein, carbs and calories of each meal/food they consume. They are able to also log their daily goals and workouts.
- I utilized Restful Routes and MongoDB, Express, and Node.js (MERN stack) to perform create, render, update, delete (CRUD) operations to enable the users to interact with the resources.
- Ensures secure log in and protected routes using Google OAuth.

EXPERIENCE

Derma Gym, e-commerce

Remote 06/2021 - 11/2022

- Coordinated the distribution of skin care devices from a wholesaler to the customer.
- Maintained and created a Shopify web-site storefront that is user friendly.

EDUCATION

General Assembly

Remote, Certificate Expected: 03/2023

Full-stack software engineering 420+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies.

University of Georgia, Bachelor of Public Health

Athens, Georgia, Graduated: 05/2016
